

## Fujitsu

### The pursuit of innovation in workplace compliance

Fujitsu is the world's fifth-largest IT services provider and is the leading Japanese information and communication technology (ICT) company offering a full range of technology products, solutions and services. Approximately 156,000 Fujitsu people support customers in more than 100 countries. Approximately 14,000 Fujitsu people are based in UK and Ireland.

In UK & Ireland the company has an extensive property portfolio including modern office space and data centres. The relationship between Assurity Consulting and Fujitsu started in the early nineties when the company required independent advice in the areas of legionella and asbestos management.

Fujitsu Services have a strong and loyal working partnership with Assurity Consulting. The team has worked hard to build solid relationships with the Facilities Managers at the Fujitsu regional sites and is on hand to support them where necessary. Strong relationships with their service partners are very important for Fujitsu Services. Having an independent viewpoint and knowing that they can call on their direct contact at Assurity Consulting to deliver trusted advice, is the type of service they have come to expect.

Assurity Consulting covers the expansive property portfolio providing workplace compliance advice for water quality, legionella management, asbestos management and noise risk assessments. In addition, support is provided with indoor air quality. Assurity Consulting have attended meetings to support Fujitsu Services with their contractor management and have assisted in identifying cost saving opportunities whilst still ensuring full compliance is achieved.

Fujitsu Services heavily rely on Assurity Plus, the online compliance management solution, to keep track with all of the compliance management at their sites across the UK.

**"Having worked with Assurity Consulting for a number of years I know I can rely on their support and professional advice on all aspects of workplace compliance including areas that are not specifically detailed in our agreement. Having an independent view point is essential and their online compliance management tool enables central monitoring to be carried out with ease."**

Carol Morrison,  
Compliance & Supplier Relationship Manager,  
UK&I Property, Fujitsu Services Limited.
